EDUCATION

BACHELOR OF ENGINEERING (B.E.), Electronics & Telecommunication <i>Pune Institute of Computer Technology — CGPA: 9.34/10</i>	2023 – 2027
XII (HSC), Shramik Junior College, Sangamner <i>Maharashtra, India — Percentage: 83.33%</i>	2021 – 2023
X (SSC), M.R.D. Malpani Vidyalaya, Sangamner <i>Maharashtra, India — Percentage: 89.80%</i>	2020 – 2021

EXPERIENCE

Pune Institute of Computer Technology (PICT) — Pune <i>Full Stack Developer Intern (In-house Internship)</i>	Feb 2026 — Mar 2026
- Developed Wanderlust, a MERN stack travel platform with secure authentication, dynamic listings, reviews, and complete CRUD functionality. - Designed scalable RESTful APIs using Node.js and Express.js, integrating MongoDB for efficient data storage and backend operations. - Improved application performance and user experience by implementing responsive UI components and optimized server-side workflows.	

PROJECTS

ECHOVERSE — MERN Stack + AI Integration	Jan 2026
- Engineered full-stack social platform with JWT authentication and real-time engagement features. - Integrated an AI-powered chatbot using OpenAI API and FastAPI microservice for automated content generation and user assistance. - Optimized MongoDB schemas, aggregation pipelines, and API performance to enhance scalability and application efficiency. Tech Stack: React.js, Node.js, Express.js, MongoDB, FastAPI, OpenAI API.	
AGORALINK — MERN Stack + Socket.io	Apr 2026
- Engineered a real-time collaboration platform with admin-controlled workspaces, JWT authentication, and instant messaging using Socket.io event-driven architecture. - Developed scalable RESTful APIs using Node.js and Express.js, integrating MongoDB for efficient user, workspace, and message management. Tech Stack: React.js, Node.js, Express.js, MongoDB, Socket.io, Tailwind CSS	

TECHNICAL SKILLS

Programming Languages : C++, Python, JavaScript
Frameworks & Libraries : React.js, Node.js, Express.js, FastAPI, HTML5, CSS3, Tailwind CSS, Bootstrap
Databases & Tools : MongoDB, MySQL, Git, GitHub, Postman, Figma, VS Code
Concepts : Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks, RESTful APIs

ACHIEVEMENTS

- **Trainee at Katalyst India:** Foundation for Women's Welfare
- **Participant:** Katalyst Tech Fest Hackathon
- Active member of National Service Scheme (NSS), contributing to community service initiatives.
